

Tobi Joshua Samuel

Senior Full-Stack Software Engineer & Real-Time Systems Specialist

Oyo State, Nigeria | +234 813 617 1874 | tobilobasam3@gmail.com | [Portfolio \(Projects & Demos\)](#)

Professional Summary

Senior full-stack software engineer with over 4 years of experience designing and delivering scalable SaaS platforms, real-time communication systems, and cloud-native applications. Proven track record of leading cross-functional teams and delivering measurable results including a 40% reduction in API latency, a 20% decrease in infrastructure costs, and a 30% boost in user engagement. Passionate about building secure, high-performance systems that scale to thousands of users while driving tangible business impact.

Professional Experience

Expert Hive Freelance Services

Software Developer & Product Design Team Lead

Oyo State, Nigeria

2022 – Present

- Promoted to lead a 5-person engineering team after designing a real-time chat system that scaled to **50K+ messages/month** with sub-**100ms latency**.
- Delivered a full-stack freelance marketplace (Django, DRF, PostgreSQL, Redis, Firebase) serving **2,000+ active users** and **1,200+ monthly transactions**.
- Implemented scalable WebSocket-based messaging and typing indicators with Redis pub/sub, improving engagement by **30%**.
- Deployed services to AWS EC2 and Cloudflare with autoscaling, cutting hosting costs by **20%**.
- Established API standards, onboarding processes, and testing workflows, reducing new developer ramp-up time by **35%**.

Sonic Plastics Limited

Software Developer

Edo State, Nigeria (Remote)

2021 – 2022

- Engineered a Django-based inventory platform that **reduced data sync latency by 45%** across distributed clients.
- Enhanced API security with AES-256 encryption and RBAC, leading to **zero unauthorized access incidents**.

- Integrated Firestore for real-time inventory visibility, improving operational decision-making.
- Mentored junior developers and refactored TypeScript modules, lowering code complexity by **25%**.

Stag Engineering Limited

Software Developer

Lagos State, Nigeria

2019 – 2021

- Built a React Native task management app with real-time sync and offline support, boosting field productivity by **40%**.
- Optimized Django REST APIs and PostgreSQL queries, reducing reporting latency by **50%**.
- Implemented CI/CD pipelines and automated notifications with Google Cloud Scheduler, cutting manual workload.

Selected Projects

Expert Hive Tutors API Backend

Django, DRF, PostgreSQL

Architected the backend powering a tutoring marketplace including question lifecycle management, tutor notifications (email/SMS), admin workflows, and a recommendation engine. [GitHub Repo \(Public\)](#)

Expert Hive Mobile App (Hive Tutors)

React Native, Firebase, Django

Built a cross-platform app for real-time Q&A and virtual classrooms with offline caching, push notifications, and secure payments.

React TypeFlare (NPM Package)

React, JavaScript

Created a lightweight typewriter component with animation and reverse-typing effects. [Published on NPM](#)

Real-time Intrusion Detection System

Python, ML

Developed a hybrid IDS using supervised and unsupervised models with a Windows agent and monitoring dashboard.

Vyzio Classifieds & Ads Marketplace

Django REST, React, Stripe

Implemented full listing lifecycle, moderation workflows, and payment integration (Stripe, mobile money, crypto).

Skills

Languages: Python, JavaScript, TypeScript, R, MATLAB, C#

Frameworks: Django, DRF, React, React Native, Node.js, Socket.io

Databases & Messaging: PostgreSQL, Redis, Firestore, Google Task Queue

Cloud & DevOps: AWS (EC2, S3), Docker, Cloudflare, CI/CD

Data & ML: Scikit-learn, TensorFlow, Pandas, BigQuery, Tableau

Practices: API design, microservices, real-time systems, TDD, Agile

Leadership: Mentorship, code reviews, team scaling, product strategy

Achievements & Impact

Promoted to Team Lead for delivering high-impact products that significantly increased platform adoption and engagement.

Achieved **40% faster API performance**, **20% cost reduction**, and **30% user growth** across multiple projects.

Drove cross-functional product initiatives that reduced operational errors and improved developer onboarding efficiency.

Education

University of Lagos
B.Sc. Mechanical Engineering

Lagos, Nigeria
Nov 2021

Full project demos, case studies, and private repositories available upon request at [tobi-joshua.github.io](https://github.com/tobi-joshua).
